Core Training Sessions

At Connect the Dots Entertainment we consult with artists to help them achieve their professional goals. Our company is the place where you bring together your past training, experience and exposure and then further develop and fine-tune yourself to perform shows, to formulate a marketing/business/career strategy and to develop and maintain communication with your fan base. We believe success is measured differently for everyone but starting at the level of success you have already achieved, we want to assist you in getting to the next level. In today's market place 'talent' is never enough. We like to think of the Artist Development Division as a finishing school for the singer/performer and in our Core Training Sessions we offer instruction in the areas of:

- Vocal Technique – Covers the basics of vocal exercises and advanced technique and will explore different methods of getting the best from your vocal instrument. Learn the 'tricks of the trade' in regard to vocal technique and styling.
- Stage Performance – Get the opportunity to perform on stage and get evaluated from industry proven professionals. Stage performance and learning exercises are used.
- Dancing for Singers – Learn how to dance and perform like a lead singer, whether it is popping in and out of choreography or playing to an audience while singing a ballad with a full performance.
- Songwriting – Make your writing process more efficient and your lyrics more effective. Learn how to find a powerful and effective song title, discover how to build lyrics, develop the rhythms of your song sections, create contrasting sections, and ideas to re-color your chorus based on the title.
- Show Preparation – Work with a choreographer to bring energy to a slow song or a party song. Prepares the singer to move with or without dancers and put together a performance set.
- Music Business – Explore the business side of entertainment and professional management.

Training sessions run for 10 weeks with classes held on Saturdays or Sundays depending on the artist's level.
